

Example Eye Care Practice – Cigna OAP

Ophthalmology · 3 providers · Dallas-Fort Worth, TX · Prepared from public price-transparency disclosures

SAMPLE PACKET – the market percentiles, Medicare baseline and facility disclosures are real, current DFW data. The example practice and its “your rate” column are illustrative, shown to demonstrate the format. Your packet uses your actual contracted rates.

1 EXECUTIVE SUMMARY

Across this practice's 8 highest-volume codes, contracted rates sit below the Cigna OAP market median on **7 codes**. Valued at documented annual volumes, the cumulative gap to median is:

\$183,570

annual gap to market median

7/8

codes below median

\$69,748

largest single-code gap

2 RATE POSITION BY CODE

CODE	DESCRIPTION	YOUR RATE	% OF MEDICARE	MARKET P10	MEDIAN	P90	POSITION	ANNUAL GAP
66984	Cataract surgery with IOL insertion	\$530	115%	\$506	\$664	\$1,013		\$69,748
92014	Comprehensive eye exam, established patient	\$123	96%	\$117	\$145	\$188		\$54,768
67028	Intravitreal injection	\$114	100%	\$106	\$139	\$222		\$21,080
92004	Comprehensive eye exam, new patient	\$150	100%	\$138	\$172	\$227		\$19,674
66821	YAG laser capsulotomy	\$307	112%	\$288	\$382	\$473		\$9,758

3 FACILITY-SIDE VALIDATION (2026 ACTUAL-PAID DISCLOSURES)

Separately from the payer negotiation, hospital price-transparency files now disclose the *actual allowed amounts* (median / 10th / 90th percentile, from remittance data) and claim counts for these procedures across DFW facilities. The dollar figures below are institutional facility amounts and are **not** comparable to the professional fees in Section 2 – they are included only to confirm these are high-volume codes that transact at real, documented scale in this market, so the benchmark reflects everyday procedures rather than edge cases. Claim counts are hospital-reported over a 12-15 month window.

CODE	FACILITY	SETTING	MEDIAN ALLOWED	P10-P90	CLAIMS (12-15 MO)
------	----------	---------	----------------	---------	-------------------

4 REQUESTED FEE SCHEDULE ADJUSTMENT

These are the codes where the practice is currently paid below the disclosed market median. The ask is specific and evidence-backed: adjust each to the market median – the rate Cigna OAP already discloses paying comparable groups in this market – effective at contract renewal, rather than a blanket percentage increase. The "Change" column shows the percentage lift from the current rate to that median.

CODE	CURRENT	REQUESTED (MARKET MEDIAN)	CHANGE
66984	\$530	\$664	25%
66821	\$307	\$382	24%
67028	\$114	\$139	22%
65855	\$249	\$301	21%
92004	\$150	\$172	15%
92014	\$123	\$145	19%
92083	\$67	\$73	10%

5 DRAFT COVER LETTER

Re: Fee schedule review – Example Eye Care Practice (TIN 75-0000000)

Dear Cigna OAP Network Management,

We are writing to request a review of our professional fee schedule ahead of our contract renewal. Using publicly disclosed rate data – negotiated-rate files published under the Transparency in Coverage rule and hospital machine-readable files published under 45 CFR 180 (v3.0, including actual allowed-amount disclosures effective January 2026) – we benchmarked our contracted rates for our 8 highest-volume procedure codes against professional rates paid to comparable ophthalmology groups in the Dallas-Fort Worth, TX market.

Our current rates fall below the market median on 7 of 8 codes, in several cases below the 10th percentile of rates Cigna OAP itself has disclosed for peer groups in this market. At our documented annual volumes, the gap to market median totals approximately \$183,570 per year.

We are requesting an adjustment of the codes listed in Section 4 to the disclosed market median, effective on renewal. The full benchmark tables and methodology are enclosed. We would welcome a call within the next 30 days.

Respectfully,

[Practice Administrator], Example Eye Care Practice

matching Medicare column. Market columns are aggregated 10th / 50th / 90th percentile figures across peer groups – no individual practice's identified rates are shown. The annual gap sums, across codes paid below the market median, $(\text{median} - \text{your rate}) \times \text{your annual volume}$; it assumes those codes are renegotiated to the median at the volumes shown and does not net codes already paid above median. Facility context from hospital price-transparency v3.0 files (45 CFR 180). Medicare baseline: CY2026 PFS, Dallas locality. All sources are public disclosures mandated by federal rule. Generated by FairRate.
